React.js | Next.js | Typescript | JavaScript ES6+ | Tailwind CSS | Supabase | MongoDB | Git & GitHub | Shadcn UI | SEO | REST APIs | Node.js | Express.js | n8n automation | Open AI api | Redux Toolkit | Zustand | OAuth | Firebase

EXPERIENCE

Freelance Frontend Developer
Madrasa Platform

03/2025 – 05/2025
Iraq

- Built a scalable, multilingual e-learning platform with RTL support for Arabic users.
- Developed 12+ modern, responsive pages with reusable UI components.
- Integrated **DRM** protection and **multi-login prevention** to ensure content security.
- Implemented **role-based access** control with protected routes for students, teachers, and admins.
- Built a robust **admin dashboard** with user, course, and activity management.
- Enabled secure admin actions with **Google Authenticator (2FA)**.
- Developed teacher tools for managing content, progress, and assignments.
- Maintained documentation for long-term scalability.

Freelance Web Developer
Appthrifts

06/2025
India

- Designed responsive UIs for seamless cross-device experience.
- Integrated Supabase for scalable user and order management.
- Implemented **Razorpay** gateway for secure payments.
- Delivered clean, minimalist UI customized to client needs.

Freelance Web Developer
Leading Edge Drone Services

05/2025
USA

- Designed custom application form with sleek UI.
- Built email workflow with Nodemailer and Next.js API routes.
- Ensured seamless submission and reliable email delivery.

Frontend Developer Intern
Uncody

07/2024 – 01/2025
India

- Participated in daily standups and collaborated with the team.
- Integrated frontend with backend for dynamic, data-driven pages.
- Debugged and optimized code for performance and reliability.
- Built **SEO**-optimized, responsive UIs using React and Tailwind CSS.
- Created reusable components to speed up development.

EDUCATION

MERN Stack Developer
OneTick CDC

12/2023 – 06/2024
Faridabad

PROJECTS

SkillSync
AI Resume Matcher & Job Recommendation Platform.
Tech Stack: Next.js, Shadcn, TypeScript, Supabase, OpenRouter AI, Zustand, Tailwind CSS
- Built an intelligent platform that analyzes user resumes using AI (OpenRouter/Mixtral model) to recommend highly relevant job listings.
- Utilized Supabase for authentication, session handling, and real-time database operations.
- Integrated resume parsing and matching logic with custom prompts and structured job data using AI-enhanced search.
- Managed global state and job recommendations using Zustand for a responsive, client-first experience.
- Deployed on Vercel with environment-based dynamic redirection and secure OAuth (Google/GitHub) support.

NFTix
A NFT-based ticketing platform Landing page
Tech Stack: React, Tailwind CSS, WAGMI
- Developed for minting and managing NFT-based event tickets with Web3 wallet integration.
- Leveraged WAGMI for seamless Ethereum wallet connectivity and contract interaction.
- Designed a responsive UI with Tailwind CSS for both desktop and mobile event attendees.
